As you will note [ ] of the Vacancies are for [ ] I don't know why Magee's "in-process" figures do not agree with those of OS, but OS does believe they will be in fairly good shape by end of Fy '85!

MEMORANDUM FOR: Deputy Director for Administration

FROM: [REDACTED]

Director of Security

SUBJECT: Office of Security Strength Level [REDACTED]

1. It appears that [REDACTED] comments on our on-duty strength are based on the Agency Strength Report dated 31 July 1985 (Attachment A). This report, which includes Professional and Technical categories only (less clerical), shows an on-duty strength of [REDACTED] against a professional/technical ceiling of [REDACTED]

2. As shown in Attachment B, we agree with the ceiling figure and show a discrepancy of only four less [REDACTED] in our 1 August figures. We project a net gain of [REDACTED] in these categories between now and 1 October and are aware of no additional attrition. The chief difference in the two sets of figures is that we show [REDACTED] applicants in process whereas they show only [REDACTED]

3. You will note that among the occupational groups shown, the only major staffing problem we have exists among our [REDACTED]. The present [REDACTED] shortfall of [REDACTED] accounts for all but [REDACTED] of our present overall shortfall of [REDACTED]. We believe that, based on our present knowledge, the number of applicants now in process for [REDACTED] positions is probably adequate. [REDACTED]

4. With the advent of our new Technical Security Directorate we will soon need a more concentrated recruitment effort against technical and engineering candidates. This will become more critical in FY'86 if additional ceiling is provided for this purpose. [REDACTED]
